DETAILED ACTION

Election/Restriction

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 37-46 drawn to an apparatus for dispensing capillaries, having a special technical feature of a guide for directing capillaries in dispensing (classified in class 221, subclass 210)
- II. Claims 24-36 drawn to a method for making taping capillaries together, with a special technical feature of tape less than half the width of the capillaries. (classified in classes 250 subclass 341 or 204 subclass 452).

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The group II claims lack the special technical feature of a guide for directing capillaries in dispensing. The group I claims lack the special technical feature of a guide for directing capillaries in dispensing.

Art Unit: 3653

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. No claims appear to be linking claims.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Exmr. Michael E. Butler whose telephone number is (703) 308-8344.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Donald Walsh, can be reached on (703) 306-4173. The fax number for the Group is (703) 305-7687.
